

PRIVATE & CONFIDENTIAL
FOUNDING MEMBERS ONLY

XKIMM XA MALI FOUNDATION

The Founder *Guide*

A private savings collective built by four brothers, for four brothers and the people closest to them. This guide explains what the Foundation is, exactly how money moves, what your account holds, and the one rule every member agrees to before joining.

"It is more blessed to give than to receive."

◆ PART I

The Foundation

Why We Exist

*When people come together with discipline, transparency and trust, they can build **something none of us could build alone.***

THE FOUNDING CONVICTION

◆ WELCOME

A Word From *the Chairman*

02

Ntwanano, Risima, Rito — this Foundation began as a conversation between the four of us. A belief that when people come together with discipline, transparency and trust, they can build something none of us could build alone. We had all watched people close to us struggle to gain financial momentum, not for lack of ambition, but for lack of a system that held everyone equally accountable.

That conviction is what everything else was built on. My part has been the technology — taking what we agreed as brothers and giving it a platform: the automation, the ledger, the safeguards you will read about here. The vision and the values belong to all four of us. I only got to build the system that carries them.

We are not building something for strangers. We are building something for our own people, and we are the first ones bound by it.

This is not a business chasing customers. It is a closed circle — the four of us, and in time a small number of people we personally know and trust, never more than fifty. Nobody markets it. Nobody applies. You come in because one of us invited you.

Which is exactly why the four of us join first, on the same terms, through the same mechanism, under the same conditions we will ever ask of anyone else. Nothing in this guide applies to members and not to us.

Read it carefully. Ask me anything at all. Do not sign until you are completely comfortable — there is no deadline and no pressure, only clarity.

Kurhula Maluleke

FOUNDER & CHAIRMAN

XKIMM XA MALI FOUNDATION
AUGUST 2026

◆ THE SHAPE OF THE THING

A Closed Circle, *Not a Product*

03

Xkimm Xa Mali is a private savings collective. It is not open to the public, it is not advertised, and nobody can sign up on their own. Membership begins with a personal invitation from one of us — and the circle is capped at fifty people.

4 FOUNDING BROTHERS	50 MEMBERS, MAXIMUM	R100 MONTHLY MINIMUM	1 SHARED POOL
-------------------------------	-------------------------------	--------------------------------	-------------------------

Invitation only

There is no public sign-up. Every member arrives through a private link issued by one of us to a specific person. No link, no account — and a link belongs to one person and is never shared onward.

People we actually know

Family, close friends, people already part of our lives. The strength of this Foundation is not its technology — it is that everyone inside it can be reached by someone who knows them personally.

Capped at fifty on purpose

Fifty is the size at which everyone can still be known, every Goal can still be discussed properly, and nobody becomes a number on a spreadsheet. Beyond that a collective stops being a collective. The cap is a design decision, not a limit we are waiting to escape.

Built around Goals, not returns

The pool exists to fund specific things the circle agrees on — equipment for a family business, emergency support, a shared investment. It pays no interest and grows nobody's personal money.

✓ WHAT THIS MEANS FOR THE FOUR OF US

We are not looking for members. We are building something small, disciplined and genuinely useful for the people already around us — then letting it prove itself before it grows by a single person.

◆ GOVERNANCE

Your Leadership

04

01

**Kurhula
Maluleke**

FOUNDER & CHAIRMAN

🏛️ FOUNDER & CHAIRMAN

Co-founder and the mind behind the platform. Built the system that carries the brotherhood's shared vision.

02

**Ntwanano
Maluleke**

CO-FOUNDER & SECRETARY

📅 CO-FOUNDER & SECRETARY

The keeper of records and governance. Maintains the standards of the collective and holds every member to the pact.

03

**Risima
Maluleke**

CO-FOUNDER & TREASURER

💰 CO-FOUNDER & TREASURER

The financial custodian. Ensures every contribution is accounted for and guards the pool with unwavering discipline.

04

**Rito
Nkuna**

CO-FOUNDER & WELFARE OFFICER

👏 CO-FOUNDER & WELFARE OFFICER

The heart of the brotherhood. Champions member welfare and keeps the Foundation rooted in human trust.

🏛️ THE RULES THAT PROTECT MEMBERS ALSO BIND US

Every leader contributes under the same rules as every other member — no special privileges, no exemption from DebiCheck, no way to bypass the ledger. Every action a leader takes is recorded against their name, permanently, where the other three can see it.

◆ PART II

The Money

How Every Rand Moves

*The platform never holds your money. It is the **book** that records the **journey** between your bank and the Foundation's.*

THE CENTRAL PRINCIPLE

◆ THE MECHANICS

How Your Contribution Works

06

In one breath

You choose a monthly amount, minimum R100. You approve it one time through your own bank. After that it simply happens each month — no reminders to pay, nothing to remember.

The one-time bank approval

This is **DebiCheck** — a bank-verified debit order, the most secure kind available in South Africa. Your own bank sends you the request through your banking app, USSD, an ATM or a branch, asking you to confirm the amount. You approve it once, with your own bank, in your own hands. Nobody holds your card details, and nobody can ever take more than you approved.

Budget Guard — your own ceiling

You set a personal ceiling on what you can contribute. If a payment would take you past it, the system stops and asks you to confirm before anything is charged — and logs the amount attempted, your ceiling at the time and the reason you gave. You never over-commit by accident.

CEILING	HOW IT WORKS
Monthly	Resets every calendar month — the straightforward choice for most members.
Yearly	A single ceiling covering your contributions across a rolling twelve months.
Custom	A ceiling you define over any period you choose.

Nothing hidden, ever

Every contribution is written into a permanent record the moment it happens. Nothing can be quietly edited or deleted — only added to. A correction is made by adding a visible reversing entry, so the full history always stays honest and readable.

THE COLLECTION FEE COMES OUT OF THE POOL, NOT YOUR POCKET

The system adds the bank's processing fee to the debit so the full amount you committed to lands in the pool. Your statement shows what you agreed to; the Foundation absorbs the cost of collecting it.

◆ FOLLOW THE MONEY

The Journey of *One Rand*

06

Every rand takes exactly this path, every month, without exception. It moves bank to bank. It never passes through anybody's hands, and it never passes through the platform.

01

Your bank account

The money is yours and sits with your own bank until the agreed day.

02

Your DebiCheck mandate

The standing permission you gave your bank — for one amount, on one day.

03

Netcash

The regulated collector your bank pays. Licensed, audited, never us.

04

The Foundation account

The shared pool, held at a bank in the Foundation's name.

ALONGSIDE, NEVER IN THE PATH

The platform watches and writes it down

At every stage above, the system is told what happened and records it: the instruction, the confirmation, the amount, the date, the outcome. It is the Foundation's book of record — not a place money stops.

What happens at each stage

STAGE	WHAT MOVES	WHAT GETS WRITTEN DOWN
01	Nothing yet — funds sit in your account	The upcoming debit and its date
02	Your bank checks the instruction against the mandate you approved	The mandate, its amount and its status
03	Your bank releases the agreed amount to Netcash	The transaction and its reference
04	Netcash settles the funds into the Foundation's account	Confirmation, your ledger entry, your receipt

🔒 IF YOUR BANK SAYS NO, NOTHING HAPPENS

A debit outside the amount or the date you approved is refused by your own bank before it reaches anyone. That protection sits with your bank, not with us — which is exactly why we chose DebiCheck.

◆ THE MOST IMPORTANT DISTINCTION

The System Never *Holds Your Money*

07

Not one rand ever sits inside the platform

There is no wallet, no balance, no stored value and no account inside the software holding money. Your money is with **your bank** until the debit date, and with the **Foundation's bank** afterwards. The platform is the book that records the journey between the two.

✓ WHAT THE SYSTEM DOES

- Instructs your bank to collect the amount you approved
- Records every contribution the moment it settles
- Keeps the permanent ledger of the whole pool
- Tells you what is coming, what succeeded, what failed
- Tracks Goals, pledges and progress toward each target
- Produces your signed statements and receipts
- Reconciles the pool against its own records daily

⊘ WHAT IT NEVER DOES

- Hold, store or carry a balance of your money
- Keep your card details — there are none to keep
- Take an amount you did not approve at your bank
- Move money between members' accounts
- Release funds on its own, without a decision
- Delete or quietly rewrite anything in the ledger
- Share your details with marketers or outsiders

So who actually holds the pool?

A bank, in the Foundation's name

The pool sits in a bank account belonging to the Foundation — not to Kurhula, not to any individual, and not to the software. All four leaders are signatories on that account, and money only leaves it for a Goal the circle has approved.

And the platform proves what is in it

Because every rand in and every rand out is written to the ledger as it happens, the pool's balance can always be checked against the Foundation's bank statement. The two must agree — and the system checks that automatically, every day.

◆ READ THIS CAREFULLY

The One Rule Every *Member* Agrees To

08

Contributions Are Not Refundable

Think of your contribution as a seed planted in a shared family garden: once planted, it is not yours to dig back up — it grows for all of us. **Money you contribute cannot be withdrawn or refunded to you personally**, whether you stay a member for years or decide to leave one day. It leaves the pool only through a **Goal** — a specific purpose the circle has agreed on.

⚠ WHY THIS MATTERS BEFORE YOU SIGN

This is not a personal savings account you can dip into. It is a shared pool. Please be genuinely comfortable with this before joining. It is not fine print — it is the foundation the whole Foundation rests on, and all four of us are agreeing to it for our own contributions at the same moment.

✓ WHAT STILL BELONGS TO YOU

Your standing is always yours to see — what you have paid, your badge, your full history. Leaving the Foundation does not erase your name from what you helped build; it simply means future contributions stop.

👉 BEFORE SIGNING

Join only if you fully understand and accept that contributions are not refundable. If any part of this is unclear, ask before you sign. There is no pressure and no deadline — only clarity.

◆ PART III

Your Account

What You Hold

Every contribution is written the moment it happens — and nothing in that record can ever be quietly changed.

THE PERMANENT LEDGER

◆ WHAT THE POOL BUILDS

Goals — Where the *Money Goes*

A Goal is a specific thing the circle decides to fund together. It is the only route out of the pool, and it is the reason the pool exists at all.

Draft

Being proposed

Active

Open for pledges

Achieved

Target reached

Failed

Target missed

How a Goal moves, start to finish

- 1 A member proposes it**
With a clear purpose and an amount — for example, “R15,000 for equipment for a family catering business.”
- 2 Leadership reviews it**
For feasibility, for alignment with our values, and for genuine benefit to the circle.
- 3 It is posted to the community**
With its target amount and its timeline, visible to every member. Anyone can cheer it on, comment on it, or pledge additional support toward it.
- 4 The target is reached**
Progress is tracked publicly as pledges and contributions come in, so nobody has to ask where it stands.
- 5 Funds are released for the stated purpose**
Paid from the Foundation's bank account, for the amount approved, for the reason approved.
- 6 The outcome is documented**
The purchase is shown back to the circle. Everyone sees what their money actually did.

THE BOUNDARY THAT NEVER MOVES

No leader may take money for personal use. Funds leave the pool only for a Goal the circle approved, at the amount approved. Every Goal, every decision and every outcome is recorded and visible to every member.

◆ RECOGNITION FOR DISCIPLINE

Your Badge

10

Contribute consistently and on time and you rise through four levels. It is recognition, not an extra financial reward — and the scoring is not a black box.

✓ HOW YOUR SCORE IS CALCULATED

40%

CONSISTENCY

35%

TIMELINESS

15%

GENEROSITY

10%

CURRENT STREAK

LEVEL	WHAT IT TAKES
Amateur	Where every new member starts — your first contributions.
Semi-Pro	3+ months active, score of 45 or more, consistency of 70% or more.
Pro	6+ months active, score 65+, consistency 85%+, timeliness 80%+, nothing overdue in the last six months.
World Class	12+ months active, score 82+, consistency 95%+, timeliness 90%+, never once overdue, and a six-month current streak.

🛡️ WHAT A BADGE IS AND IS NOT

It reflects how faithfully you keep your word, month after month. It gives you no extra claim on the pool, no larger say and no financial return. Your standing in this circle is equal whether you contribute the minimum or the maximum.

◆ STAYING TOGETHER

Community & *Staying Informed*

The community board

A shared board for messages, encouragement and Goal discussion — up to ten posts a day each, so it stays meaningful rather than noisy. Leadership can pin announcements and remove anything inappropriate.

Four ways to hear from us

SMS, email, WhatsApp and in-app messages. You choose which channels you want and you can change that whenever you like.

YOU ARE TOLD WHEN

- A contribution is coming up
- A payment succeeds
- A payment is overdue
- A Goal you care about has news
- Your badge level changes
- A statement is ready

RUNNING QUIETLY IN THE BACKGROUND

Reminders before every debit, automatic retries after a failure, badge recalculation, Goal deadline checks, monthly statements, and a daily reconciliation that checks the pool against its own records.

This is why four part-time people can run the Foundation properly.

Your statements are always genuine

Every statement and receipt carries the leadership's official signature, refreshed regularly, so what you are holding is always authentic and current — and every past version is kept on record.

IF A PAYMENT EVER FAILS

You are notified immediately on your chosen channels, and the system retries according to the bank's rules. Repeated failures affect your badge standing, never your membership. Tell leadership early if you know a difficult month is coming — this is a circle of people who know each other, not a collections department.

◆ EVERYTHING IN YOUR ACCOUNT

Your Member Dashboard

12

Once registered, this is what you find inside your own account. Every member gets exactly this — the leadership console described on the next page is separate and additional.

Dashboard

Your at-a-glance overview — standing, badge and what is next.

Contribute

Make or adjust a contribution within your own ceiling.

Mandates

View and manage your DebiCheck bank approvals.

Goals

See shared targets, pledge support and follow progress.

Badges

Your tier, your streak and how close you are to the next level.

Community

The shared board — up to ten messages a day.

Statements

Download signed, official statements and receipts any time.

Profile

Your details and your personal contribution settings.

Transactions

The full, permanent history of your own contributions.

Notifications

Your inbox of reminders, receipts and Goal updates.

WhatsApp Alerts

Choose whether payment alerts also reach you on WhatsApp.

Invitations

The private link that brought you in — yours alone, never shared.

◆ THE CONSOLE THE FOUR OF US SHARE

What Leadership Can Do

15

Alongside your member dashboard, each of us has a second, more powerful console. Because we are also members, it is only right that all of us see plainly what that console allows — and what it does not.

IN THE SYSTEM	A MEMBER	LEADERSHIP
See their own contributions and standing	Yes	Yes
See every member's records and status	No	Yes
Approve or reject a member's bank mandate	No	Yes
Reverse a mistaken transaction	No	Yes
Approve or close a Goal	No	Yes
Suspend an account, blocking sign-in immediately	No	Yes
Issue and revoke invitations	No	Yes
Pin or remove a message on the community board	No	Yes
Generate reports across the whole Foundation	No	Yes
Delete or quietly edit the permanent record	No	No
Take money out of the pool through the system	No	No

👁️ THIS PROTECTS MEMBERS — AND IT PROTECTS US

Every action taken in the console is permanently logged: who did it, to which record, from where, and at what second. Leadership does not merely watch members; leadership is watched by the same unbroken record everyone else is. That is what makes the trust here mutual rather than one-directional.

A mistake is never quietly deleted. It is corrected by adding a visible reversing entry, so the full history stays honest and any of us can retrace exactly what happened, years later.

🏛️ THE LINE NO CONSOLE CROSSES

There is no screen anywhere in the platform that moves money out of the Foundation's account. Payment for an approved Goal is made through the Foundation's bank, by its signatories, and then documented back to the circle.

IV

◆ PART IV

The Circle

Who We Are To Each Other

The strength of this Foundation is not its technology — it is that everyone inside it is known by someone.

FIFTY MEMBERS, NO MORE

◆ A TWO-WAY COMMITMENT

Your Rights & Responsibilities

✓ YOUR RIGHTS

- See your full contribution history and standing, at any time
- Set your own contribution ceiling above the R100 minimum, and change it
- Pledge to and comment on any Goal proposed by the circle
- Download your own signed statements and receipts whenever you need them
- Choose which channels notify you — SMS, email, WhatsApp, in-app
- Post on the community board, up to ten times a day
- Leave the Foundation at any time, with your history intact
- Ask leadership about any transaction, Goal or decision
- Expect equal treatment regardless of your contribution amount
- Expect transparency in every decision that affects the pool

👉 YOUR RESPONSIBILITIES

- Keep your contact details current for payments and announcements
- Protect your password and never share your login details
- Respect other members — no harassment, abuse or false information
- Read Foundation announcements posted by leadership
- Report anything suspicious immediately
- Honour your DebiCheck mandate by having funds available on the agreed date
- Keep your invitation link private — it belongs to you alone
- Ask questions before signing if anything here is unclear
- As a leader:** never act on the pool without telling the other three

🧑 EQUAL STANDING, ALWAYS

Whether you contribute R100 or R3,000 a month, your voice, your say and your respect in this circle are identical. Contribution size buys nothing here except your own badge.

◆ HOW YOU ARE PROTECTED

Security

15

Six protections stand between your information and anyone who should not have it.

Encrypted banking details

Your account number is stored scrambled, with the key held outside the database. Someone who stole the entire database would still not have your bank account.

Password protection

Protected the way banks protect theirs — irreversibly. Nobody can read your password, including leadership.

Verified bank messages

Every message claiming to come from the bank is cryptographically checked before the system acts on it, so a fake payment notice cannot slip through.

No double-charging

Every instruction carries a unique fingerprint, and the system refuses one it has already seen. If the bank sends the same confirmation twice, the second is ignored.

Sign-in protection

Repeated suspicious sign-in attempts are automatically slowed down, flagged and locked out.

A record that only grows

Every meaningful event is written permanently. Entries can be added to but never rewritten or removed.

THE STRONGEST PROTECTION IS NOT OURS

It is DebiCheck itself. Because you approved the mandate directly with your own bank, your bank refuses any instruction that falls outside what you agreed. That safeguard sits with your bank, works independently of us, and cannot be overridden from inside this platform.

◆ HONEST ABOUT WHAT CAN GO WRONG

Risks We Have *Considered*

16

No system is without risk. These are the ones we have thought about, and what happens in each case.

IF THIS HAPPENS	WHAT FOLLOWS
You miss a payment	You are notified immediately and the bank retries automatically. Your badge standing is affected; your membership is not. Tell leadership early if a difficult month is coming.
Your bank has an outage	The collection is simply rescheduled. Nothing is lost, nothing is charged twice, and the ledger records the delay honestly.
The platform is unavailable	Your DebiCheck mandate sits with your bank, not with us — collections continue regardless. When the system returns it reconciles itself against the bank record.
A payment is recorded wrongly	It is corrected by a visible reversing entry, never a deletion. Raise it with any leader and the full trail can be retraced.
Two members disagree	Raise it with the Welfare Officer first. If unresolved, all four leaders review it together and the decision is recorded and shared.
You disagree with leadership	You may question any transaction, Goal or decision at any time, and you are entitled to an answer. Disagreement is welcome here.
You resign	Future contributions stop and your history remains. Contributions already made stay in the pool and are not refunded — the rule on page 11.
Someone attempts fraud	Sign-in attempts are rate-limited and locked, bank messages are verified before being acted on, and every leadership action is permanently logged. An account can be suspended immediately.
A Goal fails to reach target	It is marked Failed and no funds are released. Nothing is committed until a target is actually met.

⚠ THE RISK WE TAKE MOST SERIOUSLY

Not a technical one — it is the relational one. This circle works because everyone in it is known personally. Raise a problem early and to a person, not late and to a system.

◆ YOUR INFORMATION

What We Collect, *and Why*

17

We collect only what is genuinely needed to set up your contribution and to meet South African financial law. Nothing more.

INFORMATION	WHY IT IS NEEDED
Full name & ID number	To verify who you are and comply with FICA, the law governing financial transactions in South Africa
Banking details	To set up and process your DebiCheck mandate with your own bank
Contact information	To send you statements, receipts, reminders and Goal news
Residential address	To maintain the Foundation's permanent record of members and contributions

🚫 WHO CANNOT ACCESS YOUR INFORMATION

Other members cannot see your bank details, your ID number or your address. They see your name, your badge and your standing — nothing more.

Marketers and advertisers get nothing. There are none, and there never will be. We do not sell data.

Outside organisations receive nothing beyond what the law strictly requires.

👁️ WHO CAN SEE IT

You, the system itself, and leadership for compliance purposes — and every time a leader opens a member's record, that access is written to the permanent log alongside everything else.

◆ THE OPERATING SYSTEM

Foundation Values

17

These eight are not decorations. Every decision, every rule and every interaction is measured against them.

Trust

Trust is earned through consistency, not promised in words. Every transparent record and every logged action exists to prove it is real here.

Transparency

If a member cannot see it, it does not exist. Every contribution, Goal and leadership action is visible, recorded and verifiable. There are no back rooms.

Accountability

Everyone answers to the same rules. Leaders are not exempt. When something goes wrong it is corrected openly, never quietly swept away.

Respect

We treat every member with dignity, regardless of how much they contribute or how long they have been here. Disagreement is welcome; disrespect is not.

Discipline

The Foundation only works if people show up. Discipline is not punishment — it is keeping your word, month after month, until the Goal is reached.

Unity

We are stronger together than any of us alone. The pool belongs to the circle, not to individuals. What we build, we build as one.

Integrity

We do what we say we will do. Our statements are genuine, our signatures mean something, and our word is our bond.

Stewardship

The money in the pool is not ours to spend freely. It is a trust placed in us by every member. We guard it carefully and account for every cent.

◆ SYSTEM MAP

How the Foundation *Fits Together*

18

Every part of the system, and how they connect.

🔗 IN SHORT

The public website is all anyone outside the circle ever sees. Once invited and signed up, you live in the Member Dashboard. Leadership works from a separate console with the oversight described on page 16. Every rand that moves passes between banks, and every update reaches you on the channels you chose.

◆ PROOF BEFORE SCALE

How the Circle Grows

19

We take every risk ourselves before we ask anyone else to take it. Nobody we invite is ever exposed to something we have not already lived through on our own money.

1

The four of us FIRST MEMBERS

All four founders join as ordinary contributing members, under exactly the terms in this guide. Whatever the Foundation asks of anyone, it asks of us first.

2

Three clean months PROOF

Three consecutive months of clean contributions across all four of us before a single person outside this room is invited.

3

The first five PEOPLE WE KNOW

Five personal invitations to people close to us. Small enough that anything unexpected is manageable, close enough that we hear about a problem the same day.

4

The first Goal THE REAL PROOF

One real Goal proposed, funded, paid and documented back to the circle. This is the moment the Foundation shows it does what it says.

5

Growing toward fifty BY AGREEMENT OF ALL FOUR

Further invitations only by agreement, always personal, always to someone one of us knows — and never beyond fifty.

WHAT WE NEVER PROMISE ANYONE

Xkimm Xa Mali pays no interest and does not grow anyone's personal money. There are no loans against your standing and no withdrawals. It is a disciplined shared pool that funds agreed purposes — and none of us should ever describe it as more than that, to anyone.

◆ PART V

Joining

Becoming a Member

*We take every risk ourselves before we ask anyone else to take it.
The four of us are the first members.*

PROOF BEFORE SCALE

◆ STILL HAVE QUESTIONS?

Frequently Asked *Questions*

20

Q. Does the platform hold my money?

No. Your money sits with your own bank until the debit date, and in the Foundation's bank account afterwards. The system instructs and records — it never stores value. There is no wallet or balance inside the software.

Q. Can I leave the Foundation?

Yes, at any time. Your history stays on record but future contributions stop. Money already contributed remains in the pool — it is not refunded.

Q. Can I change my contribution?

Yes, up or down, to a minimum of R100 a month. Adjust it from your dashboard. A new DebiCheck mandate may be required, which your bank will ask you to approve again.

Q. Can leadership withdraw money?

Not for personal use. Money leaves the pool only for a Goal the circle approved, at the amount approved, paid from the Foundation's bank account by its signatories — and then documented back to everyone.

Q. Can I get a refund?

No. This is the one rule every member must understand before joining. Contributions are not refundable under any circumstances; they leave the pool only through community-approved Goals.

Q. What if my payment fails?

You are notified immediately on your chosen channels and the system retries according to the bank's rules. Repeated failures affect your badge standing, never your membership.

Q. Who can see my details?

Only you, the system, and leadership for compliance purposes. Other members cannot see your bank account, ID number or address — and every time a leader opens a record, that access is logged.

Q. What if I lose my phone?

Your account is protected by your password, not your phone. Log in from any device. If you are worried about unauthorised access, contact leadership immediately to suspend the account.

Q. How do new members join?

By personal invitation only, from one of the four of us, through a private link issued to that specific person. There is no public sign-up, and the circle never exceeds fifty.

◆ KEY TERMS

Glossary

21

Contribution

The monthly amount you pay into the Foundation pool through DebiCheck.

Mandate

The DebiCheck approval you gave your bank, authorising the agreed monthly deduction.

The pool

The Foundation's shared funds, held in a bank account in the Foundation's name.

Goal

A specific, circle-approved purpose that pool funds are used for. The only route out of the pool.

Ceiling

Your own limit on contributions. The system stops and asks before exceeding it.

Statement

An official, signed document showing your contribution history and current standing.

Signatory

A person authorised by the bank to release payments from the Foundation's account.

DebiCheck

A bank-verified debit order that you approve directly with your own bank.

Netcash

The regulated payment processor that carries DebiCheck transactions between your bank and the Foundation's bank.

Ledger

The permanent, unchangeable record of every contribution and every transaction.

Pledge

An additional one-time commitment a member makes toward a particular Goal.

Badge

Your recognition tier, earned through consistency and timeliness. It carries no financial benefit.

FICA

Financial Intelligence Centre Act — South African law requiring identity verification for financial transactions.

Member

A person invited into the circle who contributes under the rules in this guide.

◆ FROM INVITATION ONWARD

Your Journey *at a Glance*

25

Invitation

A private link from one of us, meant for you alone

01

Registration

Your account, your password, your details

02

DebiCheck approval

You confirm the amount with your own bank

03

First contribution

Collected on the agreed date, written to the ledger

04

First badge

Recognition for showing up, month after month

05

First Goal

The pool funds something real, and you see it

06

A member for life

Your history stays yours, always

07

◆ FROM INVITATION TO FIRST CONTRIBUTION

Joining, *Step by Step*

Here is exactly what happens, and how long each part takes.

- 1 You receive an invitation**
A private link is sent to you directly by one of us. It belongs to you alone — keep it private and never forward it.
- 2 Create your account 2 MIN**
Enter your name, phone number, email and a secure password of your own choosing.
- 3 Link your bank account 1 MIN**
Tell the system which account your monthly contribution should come from.
- 4 Approve the DebiCheck request 2–5 MIN**
Your bank sends the request to your banking app, USSD, an ATM or a branch, asking you to confirm the amount. This one-time approval is what keeps you safe.
- 5 Set your ceiling 1 MIN**
Choose your monthly amount, minimum R100, and set your personal contribution ceiling.
- 6 Your first contribution ON THE AGREED DATE**
Collected on the date you approved, with confirmation on your chosen channels — and written to the ledger the moment it settles.

🕒 **TOTAL TIME TO JOIN**

Roughly five to ten minutes of your own time, plus however long your bank takes to process the DebiCheck approval.

◆ PLEASE READ BEFORE SIGNING

Important Notice

🔑 WHAT THIS GUIDE IS, AND IS NOT

This guide is **informational**. It explains how the Xkimm Xa Mali Foundation works so that anyone joining does so with a full understanding of it.

It is **not an investment prospectus**, not an offer of securities, and not financial advice.

🚫 NO PROMISE OF PROFIT OR RETURN

The Foundation does not promise, project or guarantee profits, interest, growth or investment returns of any kind. Contributions are pooled to fund purposes the circle agrees on — nothing more. No member should represent it as anything else to anyone.

✓ MEMBERSHIP IS VOLUNTARY

Nobody is obliged to join, and nobody may be pressured to. A member may stop contributing and leave at any time, without penalty and without needing to give a reason.

⚠️ CONTRIBUTIONS ARE NOT REFUNDABLE

As set out in full on page 11, money contributed cannot be withdrawn or refunded personally. It leaves the pool only through a Goal the circle has approved. Please do not contribute money you may need back.

📄 DOCUMENT CONTROL

Version	1.0
Released	August 2026
Next review	August 2027
Owner	Kurhula Maluleke, Founder & Chairman
Applies to	All members of the Xkimm Xa Mali Foundation
Distribution	Private & confidential — founding members only

◆ BEFORE YOU SIGN

Founder Declaration

26

Take your time. Ask questions. Only proceed when you are fully comfortable.

✓ I CONFIRM THAT

- ☒ I have read this guide in full.
- ☒ I understand what the Foundation is — a private, invitation-only circle capped at fifty members.
- ☒ I understand that contributions are **not refundable** and cannot be withdrawn for personal use.
- ☒ I understand the platform never holds my money; it moves between my bank and the Foundation's bank, and the system records it.
- ☒ I understand that money leaves the pool only for a Goal the circle has approved.
- ☒ I understand my rights and my responsibilities as set out on page {19}.
- ☒ I understand that every action leadership takes is permanently logged and visible to the other founders.
- ☒ I had the opportunity to ask any question before signing.
- ☒ I voluntarily agree to become a member of the Xkimm Xa Mali Foundation.
- ☒ I commit to contributing the agreed monthly amount through DebiCheck.
- ☒ I will keep my contact details current and protect my account credentials.

⚡ WHAT SIGNING MEANS

That you were given the full picture before the Foundation took a single rand from anybody, and that you are joining on exactly the same terms every future member will be asked to accept.

◆ SIGN, SAVE, AND PASS IT ON

Signature Page

By signing below you confirm you have read this guide — especially the rule on page 11 — and that you agree to it. Type your name directly into the signature box in almost any free PDF reader, save your copy, then forward it to the next brother in order.

1 KURHULA → 2 NTWANANO → 3 RISIMA → 4 RITO
